AMENDMENTS TO THE ABSTRACT

Amend the Abstract as follows:

The rewinding machine ~~comprises:~~ includes a winding system ~~(1, 2, 3)~~ and a path for feeding a web material ~~(N)~~ towards ~~said~~ the winding system. Along the feed path at least one suction member ~~(23)~~ is positioned to temporarily obstruct feeding of the web material and cause interruption thereof at the end of winding of each log ~~(R)~~.
